

Operating Instructions

Upgrade Kit

Model No. **ET-UK20**

Thank you for purchasing this Panasonic product.

- Please read these instructions carefully, and save this manual for future use.

Enables the Following

Applying this upgrade kit to a projector expands the functions of the Geometric & Setup Management Software (Geometry Manager Pro), and allows you to perform more advanced geometry correction. The masking function also becomes available for use, allowing for more advanced picture presentations.

You can download the Geometric & Setup Management Software (Geometry Manager Pro) and its operating instructions from the Panasonic website. To download, you must be a registered PASS* member and log into the PASS server (<https://panasonic.net/cns/projector/pass/>).

* PASS: Projector Asset Support System

For more information, see the Panasonic web site (<https://panasonic.net/cns/projector/pass/>).

Precautions for Use

■ Computer requirements

The following is required to apply the upgrade kit onto projectors.

- An environment that can connect to the Internet
- Member registration with PASS (free of charge)
- Installation of the Geometric & Setup Management Software (Geometry Manager Pro)

For details on system requirements, refer to the operating instructions for the Geometric & Setup Management Software (Geometry Manager Pro).

■ Installation of the Geometric & Setup Management Software (Geometry Manager Pro)

The Geometric & Setup Management Software (Geometry Manager Pro) must be installed to apply this upgrade kit onto projectors.

Log into the PASS server (<https://panasonic.net/cns/projector/pass/>), click [Software Download] on the top page of the member page, and follow the on-screen instructions to download the Geometric & Setup Management Software (Geometry Manager Pro).

Installation

Double-click the downloaded "Installer.exe" file, and follow the on-screen instructions to install the application.

- When installation is complete, a shortcut icon is created on the desktop.

■ Supported projectors

Check the information found on software download page of the Panasonic website (<https://panasonic.net/cns/projector/pass/>).

■ About activating the product

Activation using the key code indicated on the key code label must be performed to apply this upgrade kit to projectors.

Log into the PASS server (<https://panasonic.net/cns/projector/pass/>), click [Activation] in the side menu on the top page of the member page, and follow the on-screen instructions to perform activation.
